

Food Systems Education

Soil

Soil is the most important component of growing food. Humans rely directly on the health of the soil in which they are growing food. In this workshop, we will explore the science behind soil and ways to engage youth in this topic.

April 26th, 2017

UNH STEM Discovery Lab at Manchester
Pandora Building, 88 Commercial Street
Manchester, NH
Room 329
4:00 pm to 6:30 pm
