

Food Systems Education

Seeds and Plants

Through plants we receive oxygen, nutrients, nourishment and enjoyment when we can grow them and cook them! In this workshop, we will explore the science behind seeds and plants and ways to engage youth in this topic.

May 17th, 2017

UNH STEM Discovery Lab at Manchester
Pandora Building, 88 Commercial Street
Manchester, NH

Room 329

4:00 pm to 6:30 pm
